Vascular Surgery Workshop

**Waldorf
Astoria Hotel
Alnarjes Hall**

**06
February
2025**

8 CME
For All Healthcare
Professionals

The vascular workshop will offer all aspiring vascular surgeons the opportunity to practice endovascular and open surgical techniques on high quality simulators and open operative jigs. The workshop will have eight stations that cover carotid, aortic and peripheral surgery and endovascular interventions. There will also be a special diabetic foot station to demonstrate important procedures that are essential for diabetic foot management. Two lectures will also be given about proctoring for aortic endovascular interventions as well as a lecture on diabetic foot management.

Workshop Program

Lecture / Station

Lectur I : Proctoring in Aortic Endovascular Repair Tips & Tricks

Lecture II : Update on DRFU Infection – Diagnosis & Treatment according to 2023 IWGDF Consensus Guidelines

Station I : EVAR Planning and Sizing Tips and Tricks

Station II : TEVAR Planning and Sizing Tips and Tricks

Station III : Hands on Simulation of different EVAR Modules

Station IV : Hands on Simulation of different TEVAR Modules

Station V : Hands on Vascular Anastomosis
